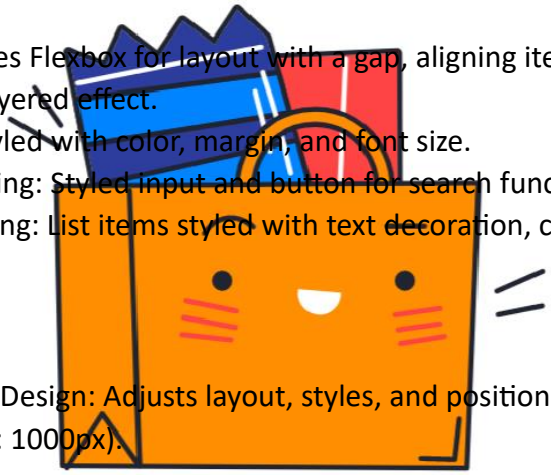
6. Style.css

- Global Styling:
  - Box Sizing and Font: Set to `border-box` for consistent box models and uses the Arial font family.

- Body Styling:
  - Background Image: Uses a background image (`background.jpg`) with cover size, fixed position, and 100% viewport height.

- Header Styling:
  - Fixed Header: Positioned `fixed` at the top, with a dark semi-transparent background.
  - Flex Layout: Uses Flexbox for layout with a gap, aligning items evenly, and a box shadow for a layered effect.
  - Logo Styling:Styled with color, margin, and font size.
  - Search Box Styling: Styled input and button for search functionality.
  - Navigation Styling: List items styled with text decoration, color, and hover effect.



- Media Queries:
  - Responsive Design: Adjusts layout, styles, and positioning for smaller screens (max-width: 1000px).

- Buttons:
  - Generic Button Styling: Applies to all buttons with a consistent font size, padding, background, and color.

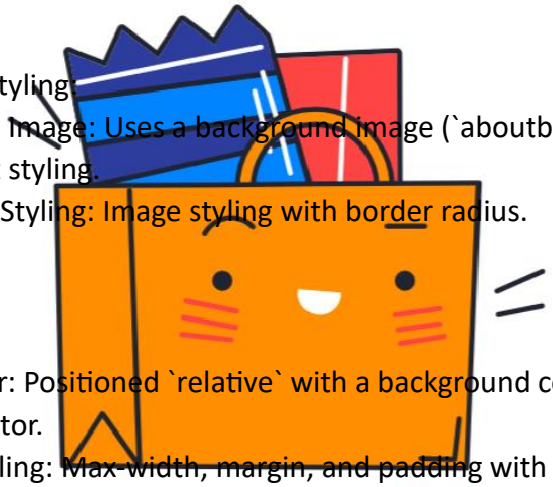
- Text Styling:
  - Global Text Styling: Applies to all text with specific padding and background.

- Description Banner Styling:
  - Background Image: Uses a background image (`banner.jpg`) with text styling.
  - Color Change Animation: Applies a color-changing animation to anchor links.

- Banner Styling:
  - Grid Layout: Uses grid for the product container with a responsive layout.
  - Image Styling: Images have border-radius and shadow, with a hover effect to scale them up.
  - Product Content Styling: Padding, font sizes, and hover effect for a smooth transition.

- Category Styling:
  - Grid Layout: Uses grid for a responsive layout.
  - Hover Effect: Scales up on hover.
  - Image Styling: Rounded corners for images.
  - Text Styling: Specific styles for category headings and links.

- About-Us Section Styling:
  - Background Image: Uses a background image (`aboutbackground.jpg`) with specific text styling.
  - Owner Info Styling: Image styling with border radius.



- Footer Styling:
  - Fixed Footer: Positioned `relative` with a background color and a pseudo-element for a separator.
  - Content Styling: Max-width, margin, and padding with flex containers for links and inputs.
  - Media Icons Styling: Social media icons with hover effects.
  - Link Boxes Styling: Flex layout for link boxes with specific styling.
  - Input Box Styling: Search input styling.
  - Bottom Details Styling: Dark background with specific text styles.
  - Media Queries: Adjustments for responsiveness.

ShopWithUs
The Anime Store

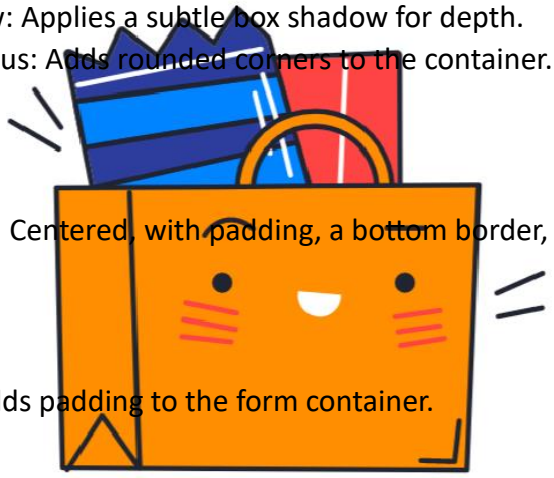
- Icon Bubble Styling:
  - Fixed Position: Positioned fixed at the bottom right.
  - Cursor Style: Changes on hover.
  - Icon and Text Styling: Bubble includes an image and an animated heading.

7. Login & signup css

- Global Styling:
    - Reset Styles: Resets margin, padding, and box-sizing for all elements. Applies the Poppins font family globally.

- Body Styling:
    - Background Image: Uses a background image (`signupbackground.jpg`) with cover size, no-repeat, and white text color.

- Center Container Styling:
    - Positioning: Centered using absolute positioning and translation.
    - Box Shadow: Applies a subtle box shadow for depth.
    - Border Radius: Adds rounded corners to the container.



- Header Styling:
    - Text Styling: Centered, with padding, a bottom border, and a specific color.

- Form Styling:
    - Padding: Adds padding to the form container.

ShopWithUs
The Anime Store

- Text Field Styling:
    - Relative Positioning: For label positioning.
    - Bottom Border: Adds a 2px solid bottom border.
    - Input Styling: Removes borders and background, adds padding, and adjusts font size.
    - Label Styling: Positioned absolutely, transitions on focus or valid input.
    - Span Styling: Represents a line under the input, transitions its width on focus or valid input.

- Password Link Styling:
    - Margin: Adjusts spacing.
    - Color and Cursor: Styling for appearance and interaction.

- Submit Button Styling:
    - Width, Height, and Border: Full-width, 50px height, border of 1px.
    - Background and Border Radius: Specific background color and rounded corners.
    - Font Size, Color, and Weight: Adjusts the text properties.
    - Hover Effect: Changes border color on hover.

- Signup Link Styling:
    - Margin and Text Alignment: Adds space and centers text.
    - Font Size and Color: Adjusts appearance.
    - Link Styling: Sets link color and removes text decoration.
    - Hover Effect: Underlines on hover.
